

# Installation Instructions for: ACCESSORIES:

(Make sure both the wall and mounting surface are clean, dust free and dry.)

## Recessed Soap Dish:

(Single, Double and Big Daddy Caddy.)

It is recommended to install soap dish after surround panels are set in place. The space the soap dish will be installed must be predetermined before surround is installed. Be sure there are no studs, plumbing or electrical lines in the way.

1) Hold soap dish finished face against the panel where it will be installed. Trace the perimeter of soap dish on the panel. Trace a second line about 1/4" smaller (3/4" for Big Daddy Caddy) on all sides. Double measure and check level. ERASE OUTER LINE.

2) Drill a pilot hole in each corner. Drill all the way through the panel and backing dry wall. Then, with a fine tooth saber saw, cut along your marked line.

3) Trial fit soap dish in hole to insure the flange fits flat against panel and is aligned properly.

Single Recessed Soap Dish  
5 5/8" x 6 1/4" cut out size

Recessed Soap  
& Shampoo Dish  
14 1/8" x 7" cut out size

Double Recessed Soap  
& Shampoo Dish  
10 3/4" x 14" cut out size

Big Daddy Caddy  
14 1/2" x 20" cut out size

## Corner Shelf:

1) Trial fit shelves in corner. If the corner is out of square you can sand, grind or cut one or both edges that fit against the wall, for a tight fit. **NOTE: Don't sand so much off of one side that your keyhole notches are gone.**

2) Hold shelf in place and mark on panels where the center of the keyhole notches are on the under side of the shelf. Make sure holes are level or slightly higher on the two inside holes. You want shower water to drain properly. Drill a 5/16" hole deep enough to accept the plastic sleeves.

3) Insert sleeves so they are flush. Screw in 1/4" screws about half way. Put the shelf on top of the screws in or out until the keyhole notches fit down evenly over the screws. Double check level.

4) Use the color caulk of your choice on the top and bottom side of shelf. Be sure to fill in the notches to cover the screws.

Corner Shelf  
12" x 12" x 3/4"
